SOUTH AMERICAN SUBBASIN GROUNDWATER SUSTAINABILITY PLAN – THIRD PUBLIC WORKSHOP – March 25, 2021 – The South American Subbasin (SASb) Groundwater Sustainability Plan (GSP) Working Group, on behalf of five Groundwater Sustainability Agencies (GSAs), invites groundwater basin users and interested community members to attend its third public workshop for the development of a GSP for the SASb in accordance with the requirements of the Sustainable Groundwater Management Act (SGMA). The SASb is located in Sacramento County between the American and Cosumnes Rivers.

Why Groundwater Sustainability Matters?

Join us and learn about the condition and future health of your groundwater subbasin. Participate in the process to understand what needs to be done to protect the quality and availability of this valuable resource, and maintain local control of our water resources. Learn why maintaining a sustainable groundwater subbasin matters to the economy, environment, and quality of life of our urban and rural communities. We need your input - join us March 25th!

The workshop will provide an opportunity to learn more about the following topics and provide input on:

- SGMA and the schedule for GSP development for the SASb
- Opportunities for public engagement in the decision-making process for the GSP
- Introduction to the SASb Groundwater Sustainability Agencies' (GSAs) Working Group
- The CoSANA modeling tool and its use in development of the GSP
- Current and Projected Groundwater Conditions in the SASb
- Planned and Potential Projects and Management Actions
- How the GSAs will fund compliance with SGMA in the future

To indicate your interest and to access the agenda and materials for the Public Meeting, please visit sasbgroundwater.org. Please note that during the development of the GSP, the individual GSAs also will hold their regular public Board Meetings, a schedule for which can be viewed at the website.

The GSP Working Group will host its third public workshop on:

Thursday, March 25, 2021 from 6:00 pm to 8:00 pm

Join the meeting:

You can also dial in using your phone.

United States: +1 669 900 6833 US

Meeting ID: 988 1742 0137 Passcode: 767359#

The GSPWG includes representation from five GSAs:

- Sacramento Central Groundwater Authority
- Northern Delta GSA
- Omochumne-Hartnell Water District
- Sacramento County
- Sloughhouse Resource Conservation District

Note: Pursuant to the Governor's Executive Order N-29-20, and given the state of emergency regarding the threat of COVID-19, the meeting will be held via teleconference.

We encourage members and participants to join the meeting 10 minutes early. Note that we will use Zoom to share slides and other information during the meeting. Use the link above to join. If you have a microphone that you can use with your computer, it should be possible to both listen to, and participate in, the meeting through Zoom. If you do not have a microphone, or a headset with a microphone that plugs into your computer via USB port, you will need to call into the conference line to listen and comment, although you still should be able to view the meeting materials on Zoom. Please do not simultaneously use a microphone through Zoom and the telephone conference line. That combination results in audio problems for all participants.
