NDGSA	CT	8/20/2021	4.00	16, 21, 22, 28		Multiple references to transfers. The NDGSA do not support out of basin transfers, or other water management that is not consistent with the Area of Origin and other statutory provisions, which aren't even mentioned. This section refer vaguely to PMAs that could have significant positive or negative impacts on the subbasin's sustainability. In order to ensure that they do not, the PMAs have to be defined in such a way to understand the benefits and impacts, and any associated mitigation and its funding. Page 16 and its PMA needs this degree of clarification or it should be
NDGSA	CT					The community has limited awareness of the well reporting program and this is an unreliable source of data in our area.
NDGSA	CT					We advise a define and implement comprehensive program to identify wells at risk from the MT and public outreach throught the subbasin to explain who to contact for well failures.
